## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-15 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Shotbolt #4,793,737. Shotbolt discloses an offshore fluid transfer system comprising a rigid seafloor riser support 35; wherein the riser support has an upper portion 23 which forms a convexly rounded hose-supporting top surface and wherein the riser is capable of progressively lifting off and laying back on the top surface. The particular dimensions would have been an obvious matter of design choice to one of ordinary skill in the art.
